## Soft Fabric Graphics Product Information

Sunbaba can now offer a range of di-sub printed soft fabrics. These fabrics are ideal for creating high quality interior branding and event themeing, as backdrops for events, exhibitions, conferences or in the theatre, for hanging banners, reproduction paintings, pitch banners, flags and even deckchairs. Not only are they pleasing aesthetically, they give a quality of print that is not available with other digital print technologies. They are colourfast, vibrant and durable and the rolls we use are the widest on the market so this means they are cost effective and offer fewer joins. For further information, fabric samples or prices, please give us a call.

### Sunbaba Environmental Statement

As a company, we are working closely with both our clients and suppliers to reduce environmental, economic and social impact of our products and have a number of recycling options available. Sunbaba is currently in the process of working towards BS9801 compliance.

#### Our Fabric Range

Product	Width m*	gm/m <sup>2</sup>	FR rating	Applications

#### Notes

\* These are standard printing widths and we produce larger graphics by sewing to create large continuous images.

\*\* BS5867 Part 2 1980 type B

All our soft fabrics are digitally printed using di-sublimation print transfer with water based inks, we are able to recycle them when they are no longer required as they are made from Polyester. Sunbaba also have a range of fabric display solutions designed to help our clients present their fabric graphics to best effect. These include our modular “Edge Frame” system which allow the simple fitting and removal of fabric graphics in minutes. They come in a number of formats free-standing, wall mounted or ceiling hung. We also offer a range of Fabric Hop-Ups which are highly portable, easy to set-up and offer maximum impact with minimal fuss! If you would like further information on our Edge Frames or Hop-Ups just give us a call.
