

## Heras Fence & Crowd Barrier Branding Product Information

Over the last ten years, Sunbaba has developed a comprehensive range of plain and printed heras fence and crowd barrier screening. We are now one of the leading suppliers of these products to the events and construction industries in the UK and Europe. Whether the project is covering a single heras fence panel or several kilometres of crowd barriers with either plain screening or ones printed with logos, text or even full colour photographic images, we have a product for you. All our screens are custom-sized and finished with eyelets, pockets or velcro to meet your specific requirements. So if you are looking for an innovative and cost effective solution, please give us a call.

### Sunbaba Environmental Statement

As a company, we are working closely with both our clients and suppliers to reduce environmental, economic and social impact of our products and have a number of recycling options available. Sunbaba is currently in the process of working towards BS9801 compliance.

### Our Range

- **Austronet** - a versatile range of lightweight, air permeable, eco-friendly, knitted polyethylene fabrics available in a wide range of colours and can be supplied plain or over printed with text or simple logos.
- **UltraMesh** - our well proven air permeable, mesh fabric that can be digitally printed with full colour graphics, an ideal product for long term or repeated use.
- **VestaWeave** - a light weight, air permeable polyester fabric which can be either dye-sub or screen printed.
- **Non Woven Polyester** - a light weight fabric which can be screen printed and is ideal for long runs of continuous bannering on crowd barriers.
- **Polyethylene** - a new lower cost, solid, light weight banner material, which is fully recyclable and is printed with UV inks. This high strength material does not require metal eyelets and is finished with specially punched eyelets.

Applying branding to fence scrims can have a huge impact on the overall look of an event. Scrims can be used on heras fencing and crowd control barriers to link areas and add to the overall branding experience. They are also ideal for covering unsightly backstage and storage areas etc. with interesting messages or graphics. Our team works closely with event and festival organisers, offering them one point of contact for all their branding needs, with service from creative design through to technical advice and overseeing installation, if required.
