

## Building / Scaffolding Wraps Product Information

Over the last ten years, Sunbaba has developed one of the most comprehensive ranges of plain and printed media for building and scaffolding wraps. We are now a leading supplier of these products to the events and construction industries in the UK and Europe. We have worked with projects to cover the side of a building or wrapping temporary grandstands at major sporting events with plain screening, simple graphics or full colour photographic images, choosing the right fabric for the job. All our wraps are custom-sized and finished with eyelets, pockets or velcro to meet your specific requirements. If you are looking for an innovative and cost effective solution, please give us a call.

### Sunbaba Environmental Statement

As a company, we are working closely with both our clients and suppliers to reduce environmental, economic and social impact of our products and have a number of recycling options available. Sunbaba is currently in the process of working towards BS9801 compliance.

Product Information

Our specialist range offers a highly cost effective branding solution, so whether you need simple graphics, full colour photographic images or just plain building or scaffolding wrap we have the product for you. Sunbaba's UltraMesh and Austronet range have been used extensively through out the UK and Europe, many of our clients often use a combination of our plain and overprinted Austronet as it offers a cost effective solution. At Sunbaba we don't just sell branding; we offer a service that includes advice and support right from the start of the project through to completion. As a result we have developed strong relationships with all our clients large or small, so if you would like further information, print samples or a quote just give us a call.
